

Evaporation

Evaporation is _____
_____.

My teacher put the same amount of water into two dishes. One dish is small and narrow and the other is big and wide. This is what I think will happen (my prediction):

Small Dish

Wide Dish

This is what really happened:

Small Dish

Wide Dish

Evaporation

Fill in the blanks with the following words:

dissolve water salt

We put salt into a cup of _____ . Then we stirred and stirred

until all of the _____ was _____ .

Where do you think the salt went?

What do you think will happen?

What really happened? Why?

Where did the water go?

Where did the salt go?
